

# ***GREAT NEWS, BLUE STREAM FIBER IS BUILDING FIBER IN CYPRESS VILLAGE!***

Next week we will begin underground cable construction as the first step in the process. Please note, if your property is impacted, no need to worry, we will restore it to its original condition upon completion. Please feel free to reach out to your community's dedicated number **352-254-4515** with any concerns.

As we move into different steps of the process, we will be reaching out with information on the new services available to you, along with details on installations and how to sign up.

We are thrilled to be bringing fiber to your community and look forward to providing these new world-class services!
